

MD Asraful Islam

Web Developer

About Me

I'm a web developer with hands-on experience in full-stack applications and mobile apps. While I've worked with Flutter and Android, my current focus and passion lie in web technologies like React, Node.js, Django, and Laravel. I'm also exploring AI to build smarter, feature-rich web applications and aim to grow as a full-stack developer in a dynamic team.

Skills

- React
- Vue
- Angular
- SCSS
- Bootstrap
- Tailwind
- Express
- Django
- FastAPI
- Laravel
- MongoDB
- PostgreSQL
- MySQL

Language

- English
- Bangla

Education

Bachelor's Degree (In Progress)
— Narayanganj University, Year 2021

Learning independently in the fields of web development, backend systems, and programming.

Learning Experience

As a self-taught and highly motivated developer, I have gained hands-on experience in building full-stack applications using HTML, CSS, JavaScript, React, Node.js, FastAPI, Django, Laravel, Flutter, and Android with Java. I've worked with multiple database systems including MongoDB, PostgreSQL, and MySQL, allowing me to build dynamic, data-driven applications. My experience spans frontend interfaces, backend APIs, and cross-platform mobile apps. Currently, I'm learning AI technologies to support my long-term goal of developing high-feature, intelligent applications as a full-stack developer.
