/ hilarious-melba8c3e59.netlify.app

PROFILE

Self-taught full-stack developer from Bangladesh with hands-on experience building web and mobile applications. Comfortable across React, Node.js, Django, and Laravel, with prior work in Flutter and Android. Currently exploring AI to build smarter, feature-rich applications, with a long-term goal of growing as a versatile full-stack developer within a dynamic team.

PROJECT EXPERIENCE

Independent Full-Stack Projects

Self-Directed / Ongoing

- Built full-stack web applications end-to-end with HTML, CSS, JavaScript, React, Node.js, FastAPI, Django, and Laravel.
- Developed cross-platform mobile applications using Flutter and native Android (Java).
- Designed and implemented data-driven backends with MongoDB, PostgreSQL, and MySQL.
- Built a personal portfolio site with a custom animated HTML/CSS/JS interface and an integrated AI chat assistant.
- Currently studying AI/ML to integrate intelligent features into future web applications.

SKILLS

Frontend React, Angular, Vue, Tailwind CSS, Bootstrap, SCSS

Backend Express, Django, FastAPI, Laravel

Databases MongoDB, PostgreSQL, MySQL

Mobile Flutter, Android (Java)

Exploring AI / Machine Learning
